

For each we need a color image and processed images, except for the fifth priority set which only requires color images.

**First Priority** (both sets)

DLC297b

DLC297c

**Second Priority**

NLS10703

**Third Priority** (in no particular order, although there are just a few pages per set)

DLC1120b

DLC297d (will need to be stiched)

**Fourth Priority** (in no particular order, although there are just a few pages per set)

NLS10701

NLS10707

NLS10768

**Fifth Priority** (Color Only)

DLC297a

DLC297e

In most cases the pages in each batch are very similar and so the same type of processing for each should work.
